Possible Test Scenarios – Positive & Negative

TC ID	Module	Test Scenario	Type
TS_001	Application	Verify that the PetStore website opens successfully	Positive
TS_002	Application	Verify that all animal categories are displayed	Positive
TS_003	Navigation	Verify that user can navigate to Fish category	Positive
TS_004	Navigation	Verify that user can navigate to Dogs category	Positive
TS_005	Navigation	Verify that user can navigate to Cats category	Positive
TS_006	Navigation	Verify that user can navigate to Reptiles category	Positive
TS_007	Navigation	Verify that user can navigate to Birds category	Positive
TS_008	Product	Verify that products are displayed after selecting a category	Positive
TS_009	Product	Verify that user can view product details	Positive
TS_010	Product	Verify that user can view individual item details	Positive
TS_011	Search	Verify that user can search for an existing product using a valid keyword	Positive
TS_012	Search	Verify that search displays relevant products for a valid keyword	Positive
TS_013	Search	Verify that search with an exact product name returns the product	Positive
TS_014	Cart	Verify that user can add an available product to the cart	Positive
TS_015	Cart	Verify that added product is displayed in the shopping cart	Positive
TS_016	Cart	Verify that user can update product quantity in the cart	Positive
TS_017	Cart	Verify that user can remove a product from the cart	Positive
TS_018	Cart	Verify that cart total is calculated correctly	Positive
TS_019	Login	Verify that user can login with valid credentials	Positive
TS_020	Registration	Verify that a new user can register with valid details	Positive
TS_021	Checkout	Verify that user can proceed to checkout with a product in the cart	Positive
TS_022	Checkout	Verify that user can enter valid payment details	Positive
TS_023	Checkout	Verify that user can successfully place an order	Positive
TS_024	Order	Verify that successful order displays order confirmation	Positive
TS_025	Search	Verify that searching with an invalid/non-existing keyword displays an appropriate message	Negative
TS_026	Search	Verify that clicking Search without entering a keyword displays an appropriate validation message	Negative
TS_027	Login	Verify that login fails with an invalid username	Negative
TS_028	Login	Verify that login fails with an invalid password	Negative
TS_029	Login	Verify that login fails when username is blank	Negative
TS_030	Login	Verify that login fails when password is blank	Negative

TC ID	Module	Test Scenario	Type
TS_031	Registration	Verify that registration is prevented when mandatory fields are blank	**Negative**
TS_032	Registration	Verify that registration is prevented when password and repeat password do not match	**Negative**
TS_033	Registration	Verify that invalid email format is rejected	**Negative**
TS_034	Registration	Verify that invalid phone number is rejected	**Negative**
TS_035	Product	Verify that unavailable/out-of-stock products cannot be purchased	**Negative**
TS_036	Cart	Verify that user cannot add more quantity than available stock	**Negative**
TS_037	Cart	Verify that checkout cannot proceed with an empty cart	**Negative**
TS_038	Checkout	Verify that checkout does not proceed when mandatory payment details are missing	**Negative**
TS_039	Checkout	Verify that invalid card number is rejected	**Negative**
TS_040	Checkout	Verify that invalid card expiry date is rejected	**Negative**
TS_041	Checkout	Verify that invalid billing ZIP code is rejected	**Negative**
TS_042	Checkout	Verify that invalid shipping ZIP code is rejected	**Negative**
TS_043	Checkout	Verify that order is not placed when required customer information is missing	**Negative**
TS_044	Session	Verify that unauthorized users cannot access protected account/order functions	**Negative**
TS_045	Session	Verify that session-related actions behave correctly after logout	**Negative**
